The Chandler location offers a wide range of speeds to service all makes and models of automobiles. During this consultation with you, we will determine the cause of your speedometer problem. We will then provide you with an estimate of our labor and costs. We strive to provide the best value in the area and strive to be the number one choice for speedometer and related repairs and troubleshooting. Feel free to contact us with any questions or to make an appointment to give us an opportunity to perform a free diagnostic on your vehicle. We look forward to serving you in the future and offer you the best service in Chandler and the surrounding area. We can be reached at (480) 924-1444 or click here to make an appointment.Q: Undo integer assignment in Ruby 1.9 I have code that looks like this: foo =???? where???? is a variable that can be one of several different integers, say 10, 100 or 1000. What I'm looking for is a way to undo the assignment of foo, so it goes back to whatever value it had when I invoked it. I'm using Ruby 1.9.2p290. The only thing I can think of is to store the original value of foo in a local variable, like this: bar = foo foo =???? 50b96ab0b6

Securing your digital life with Internet Security and AntiVirus software. You're on Genius Your skills are unique and creative.
